

es.deusto.spq.ProductTest.test
GetSetName

```
graph LR; A[es.deusto.spq.ProductTest.test  
GetSetName] --> B[es.deusto.spq.Product.getName]; A --> C[es.deusto.spq.Product.setName];
```

The diagram illustrates a test method, `es.deusto.spq.ProductTest.testGetSetName`, which is represented in a grey box. Two blue arrows originate from the right side of this box, pointing to two separate white boxes. The top white box contains the text `es.deusto.spq.Product.getName`, and the bottom white box contains `es.deusto.spq.Product.setName`. This visualizes the test method's interaction with the `Product` class's `getName` and `setName` methods.
