

es.deusto.spq.UserTest.test
SetGetName

```
graph LR; A[es.deusto.spq.UserTest.test<br/>SetGetName] --> B[es.deusto.spq.User.getName]; A --> C[es.deusto.spq.User.setName];
```

The diagram illustrates a test method, `es.deusto.spq.UserTest.testSetGetName`, which is represented in a grey box. Two blue arrows originate from the right side of this box, pointing to two separate white boxes. The top white box contains the text `es.deusto.spq.User.getName`, and the bottom white box contains the text `es.deusto.spq.User.setName`. This visualizes the test method's interaction with the `getName` and `setName` methods of the `es.deusto.spq.User` class.

es.deusto.spq.User.getName

es.deusto.spq.User.setName
